The graph shows a linear relationship between the number of days of rain and the number of days of sunshine. The x-axis represents the number of days of rain, ranging from 0 to 10. The y-axis represents the number of days of sunshine, ranging from 0 to 10. A straight line connects the point (0, 10) to the point (10, 0), showing that the total number of days (rain + sunshine) is constant at 10.
